

AMENDMENTS TO SPECIFICATION

Please amend the application as indicated below.

- A. At page 1, before the "Technical Field" section, please insert the following new section:

--CROSS-REFERENCES TO RELATED CASES

This is a continuation of U.S. Patent Application Serial No. 09/861,287 filed May 18, 2001 (U.S. Patent No. 6,668,880). This is also a continuation of co-pending U.S. Patent Application Serial No. 10/624,715 filed July 21, 2003. Priority under 35 USC§120 is claimed with regard to both such applications.- -

- B. Please amend paragraph [0047] as follows:

[0047] An exemplary upper cover 241 includes a front portion 243 pivotally connected to frame 240 (not shown) to allow upper cover 241 to be pivoted upward when access to upper portion of auxiliary engine 28 is warranted. Referring to Fig. 11, the upper surface 242 of top cover 241 is more thoroughly shown defining a plurality of square openings 244 with each covered by a screen 245 to allow dissipation of heat from auxiliary engine ~~240~~ 28 and viewing therein. Also shown

is a circular opening 246 which may be used, for access to the radiator cap (not shown).
